Hi Bill,

Can you please review and let me know if ADEC adequately addressed the comments you provided to Brock? Thanks.

Subject: FW: First Draft 2014 Performance Partnership Agreement

All, attached is the first draft of the Alaska SFY14 PPA - DEC is still working to produce language for several of the sections. From the note below you can see that DEC desires to focus the PPA this year on top priorities and thereby limit the scope of the some of the subject matter that we have included in the past. Please review the document and let me know if you have any edits, additions, or deletions, by 31 May 2013. To the extent that you can please work with your DEC counterparts to come up with consensus language. I plan on being in Seattle next week Wednesday and Thursday and have meetings scheduled with many of you. If you would like to meet to discuss the SFY14 AKPPA, the PPA development process/timeline, or our NPM Guidance for PPAs, please send me a meeting request.

Ken

Subject: First Draft 2014 Performance Partnership Agreement

All-

Attached in MS Word format is the first draft of the Performance Partnership Agreement between EPA and DEC for 2014. As noted earlier, this year we are focusing on the top priorities. I have edited the table of contents in red strikethrough so you can get an idea of what items have been deleted from this draft compared with last year.

If possible, please provide your edits by COB Wednesday, May 29 so we can have a final product ready by the end of June.
